

Our Mission is to ensure that the client feels secure and comfortable when they are in-home or venturing into unfamiliar or previously difficult territory.

Exhibit A

SOS Services include:

Transportation and Accompaniment:

- For all appointments and/or community activities with assistance as required.
- Help ease the confusion of appointments, and everyday life.
- Friendly emotional support and communication.
- In - home visits, dementia respite, transition support.
- Troubleshooting around new, or ever changing health challenges.
- A supportive team to help with new ideas and progressive assistance on health issues, and changes of SOS clients

SOS is made up of a caring team of professional companions that will assist and provide care necessary to keep our clients Secure, Content, and Comfortable which will be tailored to their individual needs now and as time goes on.

Description of SOS services:

- **Transportation/Outing functions** - Travel for medical appointments, dialysis, hospital attendance, scheduled personal outings, such as shopping trips, or short entertainment activities, as well as preplanned daytrips out of the city. A chosen companion accompanies the client through all the thresholds of these outings.
- **In - Home Care Services** - This can provide respite for the primary caregiver. Loving care for a person; in their own home, with pre-planned meal assistance, assisting with feeding challenges. Light house work for that person's needs, and personal hygiene assistance. Visits with clients in home that provides mental and physical nourishment.
- **Personalized Care 1Service** - is uniquely tailored to clients individual care requirements. E.g. Dementia, Diabetes, Parkinson's, M.S, and Bereavement support.
- **Palliative Care** – to help make the clients comfortable in home while in transition, and/or providing support to family members. Provide extra attention for comfort and care to their needs while in a facility.
- **Pre /Post Surgery Health Care** – Supportive assistance is provided for pre surgery. Following up with post Healthcare. This includes dental, eye surgeries
